Davos in Grisons is a place of superlatives: this holiday destination with international ambience is the largest resort in the Alps for mountain holidays, sport and conferences, at 1560 m the highest town in the Alps and a high-altitude health resort with a long tradition. This long-drawn-out town in the Landwasser valley is renowned above all as a conference centre, and also as a major winter and summer sports centre with an international flavour and a huge range of activities. Its showpiece is its modern Conference Centre, which hosts the World Economic Forum WEF (nearly) every year. In the centre of Davos, visitors will find a wide range of accommodation and excellent shopping, with numerous boutiques, cafés and restaurants. At night, too, there's plenty of entertainment, with bars, discos and a casino.

Chur - The oldest town in Switzerland, with a settlement history dating back 5,000 years, harbours many a secret just waiting to be uncovered! For example, in the 800-year old cathedral or in one of the picturesque winding streets in the Old Town. The spirit of bygone days lives on in Chur and merges with the present to create the town's incomparable charm. Particularly worth a visit is the Rhaetian Museum, the Museum of Fine Arts and the Natural History Museum. Chur is the only Swiss city with its very own winter and summer sports region, high up on the Brambrüesch mountain (1,200-2,200 m above sea-level). Furthermore, Chur offers the broadest culinary range of Graubünden delicacies, all concentrated in one town – with its own wine, alpine source water from every tap, Bündner specialities and international dishes served at its 130 restaurants.

The very best leg of the journey begins after Pontresina as the train approaches the top of the Bernina Pass. Without cog wheels the train ascends towards the magnificent alpine scenery; glaciers, snow and heady peaks surround the 2253 metre (7400 ft) pass crossing.

As you admire Poschiavo Valley, still well below the train, the fragrances of southern climes begin to mix with the bracing alpine air.

On arrival in Poschiavo leave the train and discover an unspoiled, miniature vacation world that reflects the valley's culture with its traditional, natural foods and handicrafts, its welcoming friendliness, and its unforgettable natural treasures. Enjoy a lunch at one of the charming restaurants before you return the same way back to St. Moritz by the impressive Bernina Express.

Sertig, as every other Davos side valley, is a typical glacial valley with terraces and ledges of major touristic importance. The Sertig Valley offers an unforgettable Alpine experience: a unique natural mountain landscape, crystal-clear mountain streams, dense pine and larch forests and chances of wonderful wild-life watching. Horse-drawn carriage rides in the Sertig Valley are firm favourites in both summer and winter. The impressive waterfall at the rear of the valley is a popular excursion destination. Sertig has been awarded the status of "a Swiss region worthy of special protection".

In 2002, fossils were again discovered during excavations at Ducanfurrga (2776m. altitude), the pass between Sertig and Bergün. Fossils have been excavated on Ducan since 1994.

The village of Sertig (1861m altitude) is the site of the tiny "Hinter den Eggen" church, built in 1699 and particularly popular for weddings and christenings. The church has been a protected monument since 1941
